
CONCUR EXPENSE INTEGRATION FOR SAGE

THE PROBLEM

COMPLEX
ACCOUNTING AND
TAX RULES

COMPLICATED,
ERROR PRONE
ENTRY

TIME
CONSUMING
DATA ENTRY

THE SOLUTION

The Connector for Concur Expense & Sage eliminates cumbersome expense entry, manual file manipulation, and imports by posting expense reports directly into your Sage solution.

The connector handles difficult entries such as non-reimbursable expenses or company card payments. Complex tax, project, multi-entity & nominal ledger (G/L) allocation are all supported; driven by a set of rules configured through the connector, reducing the posting process to just a single click of a button.

Where the out-of-box integration doesn't meet your needs, customisations can be made easily without the need for custom development since the Concur connector is powered by Realisable's code-free integration platform.

THE CONNECTOR FOR CONCUR EXPENSE & SAGE PROVIDES A CUSTOMISABLE INTEGRATION PLATFORM FOR PROCESSING CONCUR EXPENSES INTO A RANGE OF SAGE SOLUTIONS.

THE CONNECTOR FOR CONCUR EXPENSE & SAGE IS THE LAST HOP BY AUTOMATICALLY POSTING EXPENSE REPORTS INTO YOUR SAGE SOLUTION.

CONCUR AND YOUR SAGE SOLUTION

With multi-module support, Realisable leverages the functionality of your Sage solution. The Connector for Concur Expense & Sage provides a set of options to not only define how data is mapped into Sage, but also to which modules expenses are posted; providing the flexibility to match with existing or desired processing rules.

FEATURES AT A GLANCE

- Standard & professional editions supported.
- Multi-currency transactions.
- Multi-ledger support: accounts payable; cashbook; general ledger or payroll.
- Project Accounting support.
- Handle corporate credit card payments, and non-reimbursable expenses.
- Definable field mapping.
- On-demand or scheduled posting of expenses.
- Multi-entity Sage posting.

ABOUT REALISABLE

Realisable Software, founded in 2010, are developers of IMan, a leading middleware and integration platform for Sage solutions. Across its install base, Realisable IMan sites handle tens of millions of transactions annually in virtually every industry. Realisable operates globally with clients covering Europe, the Middle East, Asia, the Americas, Africa and Australasia.
